STANDARD OF REVIEW

Section 9, STANDARD OF REVIEW, of the Historic Preservation Ordinance states that “The Board shall not approve any application proposing a Material Change in Appearance unless it finds that the proposed change:…Will not materially impair the architectural or historic value of the building, the buildings on adjacent sites or in the immediate vicinity, or the general visual character of the historic district…

STAFF REPORT

Based on the information contained in the application, and in Staff’s judgment, the proposed work does not comply with the Design Review Guidelines and could impair the historic integrity of the structure and the district.

A. The Design Review Guidelines state that “Replacement of exterior finishes, when required, must match the original in profile, dimension and material. Particular care must be taken with masonry”
1. 258 and 260 Congress Street, the Quigley Houses, are a pair of highly significant Greek Revival townhouses constructed in 1856.
2. The buildings are currently painted a ruddy rose-brown color mimicking the look of historic brick.
3. Information in the MHDC file suggests they were originally painted in 1972.
4. Without a Certificate of Appropriateness or a building permit, the applicant re-grouted the historic brick with Portland cement and began painting the structures.
5. Staff received numerous complaints from neighborhood residents.
6. A Stop Work order was issued until this issue could be resolved by the Review Board.
7. The applicant is requesting to continue painting the structure in Birdseye Maple by Sherwin Williams.
8. Painting is not appropriate to the age and style of the historic Greek Revival brick structures.

Staff recommends that the Board determine the appropriateness of the paint color.
